## One Economy Bill May Pass, 2nd Not Likely

By BARRY SCHWEID

WASHINGTON (AP) — One of President Kennedy's top priority economic proposals may be ready next week for House consideration while another of his measures to spur the economy faces rougher going.

The bill being shaped up for presentation to the House would provide up to 13 weeks additional benefits for long-term unemployed who have used up their rights under existing law.

But Kennedy's proposal to boost the minimum wage and extend its coverage was being buffeted by those who think it goes too far and those who think it doesn't go far enough.

The bills now are in the hands of two House committees. Ways and Means has the unemployment compensation measure. The Labor Committee is handling minimum wage.

The way was smoothed for unemployment compensation when it was reliably reported Friday that the Ways and Means Committee had worked out a change in the method of financing. The change according to its backers it will make the bill more palatable to business and increase its support among committee and House Republicans.

Employers finance the unemployment insurance program in the form of a tax of up to 3.1 per cent on a maximum of \$3,000 of a worker's income.

The administration proposed increasing the maximum tax base permanently to \$4,000.

Business witnesses appearing before the committee objected, mainly on grounds that an emergency program should not be used to make a permanent change in the law.

The reported compromise will be a temporary increase in the rate of the payroll tax to 3.3 per cent, with the base remaining at a \$3,000 maximum.

Setting Tuesday for a closed session of the committee to work on a final draft, Chairman Wilbur D. Mills, D-Ark., said "We'll move as fast as we can."

## \$33 Million Asked for Jobless

WASHINGTON (AP) — President Kennedy today asked Congress for an additional \$33 million for unemployment compensation payments for former federal employees and ex-servicemen.

The White House said present funds will be exhausted about March 1.

The supplemental appropriation was asked for the Labor Department which handles the payments.

Kennedy's request is on top of \$37 million in supplemental funds asked by former President Dwight D. Eisenhower on Jan. 18.

The Eisenhower budget asked \$112 million for this purpose and Congress appropriated \$107 million.

In another request for a supplemental appropriation, Kennedy asked an additional \$10 million for the Bureau of Old Age and Survivors Insurance for salaries and expenses in the bureau.

He proposed a \$12-million reduction in one pending Eisenhower request for additional funds.

On Jan. 18, Eisenhower asked Congress for an additional \$30-900,000 to cover the cost of railroad rate increases for carrying the mail which were authorized by the Interstate Commerce Commission.

Kennedy proposed cutting this to \$18,500,000.

Press secretary Pierre Salinger said the reduction was made possible by trucks and airlines carrying more mail.

## Fighting in Cuba

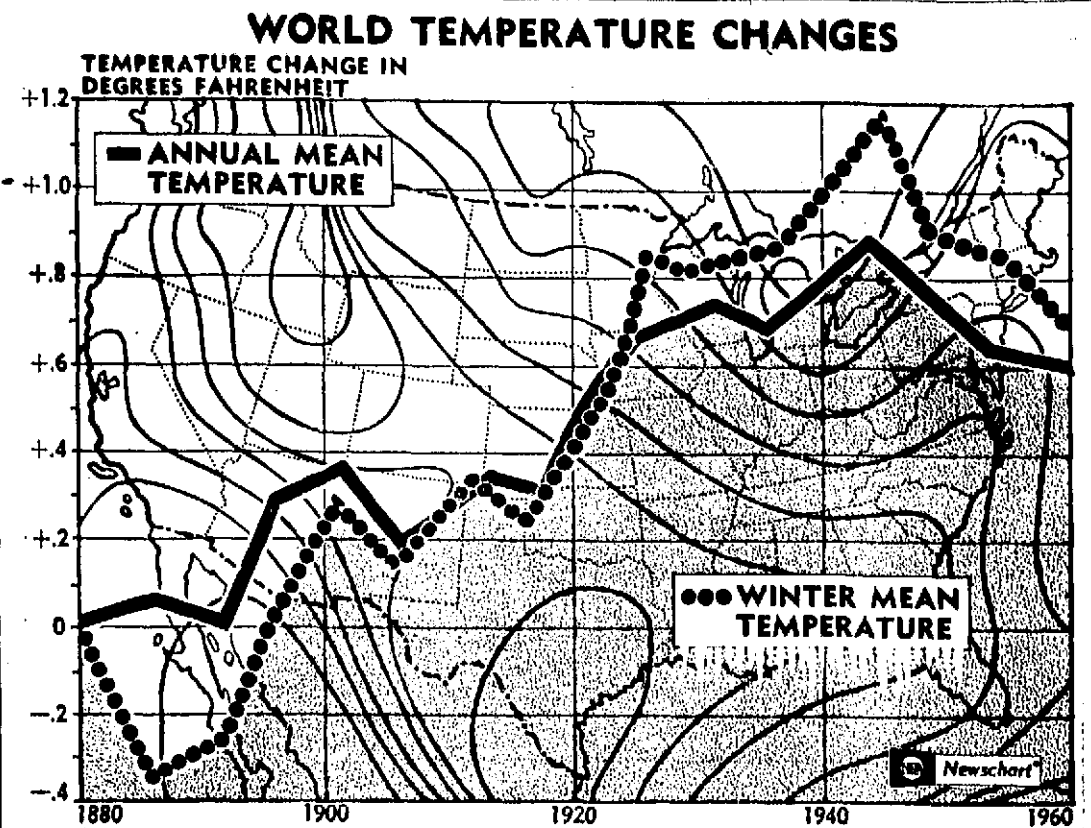

HAVANA (AP) — All-out battle against rebel forces in the Escambray Mountains reportedly is giving Fidel Castro's militia heavy casualties and indecisive results.

Fifteen militiamen were slain in a clash near the Las Villas Province town of Trinidad, and 300 militia wounded jammed a hospital elsewhere in south central Cuba, one source said Thursday.

The informant reported some 50,000 militiamen, well armed but inexperienced, and 4,000 national policemen are trying to clean out 1,000 rebels.

## Weather

Arkansas—Mild with scattered showers today and tomorrow. Turning cooler tomorrow.

**WINTERS OF DISCONTENT**—Winters throughout the world have been getting colder, since the early 1940s, according to the U.S. Weather Bureau. Up till then, average temperatures, when plotted on a graph, had shown a long upward trend beginning in the 1880s. At its peak, the annual mean temperature was about .9 degrees warmer than in 1880. Average winter temperature was nearly 1.2 degrees higher. Scientists are not agreed on the causes, but it appears that now winters are getting to be more like the ones grandpa talks about.

## Negro Youth Kills Teller, Robs Bank

LAKE CHARLES, La. (AP)—A teen-ager shot and knifed to death a woman teller and wounded two other bank employees he took as hostages in a \$14,000 robbery Thursday night.

State Police seized Wilbert Rideau, 19-year-old Negro, as he was driving the small foreign car belonging to the slain woman, Julia Ferguson, 50, a widow.

Sheriff Henry Reid Jr. said Rideau admitted holding up the suburban bank. Reid added he would be charged later today with murder, kidnapping and armed robbery.

Rideau, whom the sheriff said had a juvenile record, told police he bought a .22-caliber pistol Wednesday. He was employed in the same shopping center where the South Gate branch of the Gulf National Bank is located. The bank stays open until 7 p. m. on Thursdays.

Rideau told officers he went into the bank and "I showed him (Jay H. Hickman, about 50, the branch manager) the gun and told him to call the two girls to the front of the bank and have them close the draperies."

Meanwhile, Dora McCain, 30, a teller, telephoned the main bank and said, "Something peculiar is going on." Then the connection was broken.

The bandit forced Mrs. Ferguson, Mrs. McCain and Hickman into Mrs. Ferguson's car and drove off.

"We drove all over," Rideau said.

Rideau was picked up about an hour and a half after the robbery.

The youth told police he fired at the three when they jumped out of the car.

But a coroner's report said there were powder burns on the back of Mrs. Ferguson's neck. She had been shot twice and stabbed twice.

Hickman denied that he and the women tried to jump out of the car. Hickman, who said he was shot first, suffered a shoulder wound.

Mrs. McCain, who said she "played dead" after being shot in the neck, was in serious condition at a hospital.

## Ouachita Group Names President

EL DORADO, Ark. (AP) — H. W. McMillin of Arkadelphia was re-elected president of the Ouachita River Valley Association today.

Other officers elected included Louis Hurley of El Dorado, Harold Woods of El Dorado and J. E. Wheeler of Sterling, La., vice-presidents, and H. K. Thatcher of Camden, executive director.

## Dr. Phelps Speaks in East Texas

MARSHALL, Tex. (AP) — The Rev. Howard C. Bennett Thursday was inaugurated as president of East Texas Baptist College.

First Baptist Church of Kilgore for 17 years. He succeeds Dr. H. D. Bruce, who becomes president emeritus.

About 60 representatives of Southern and Southwestern Colleges were among the 300 or more persons attending the rites.

The Rev. Ralph Phelps Jr., president of Ouachita Baptist College at Arkadelphia, Ark., the luncheon speaker, listed nearly a score of pressure groups the new president will find.

## Look Editor Is Named Ambassador

WASHINGTON (AP)—President Kennedy today chose William Attwood, 41, foreign editor of Look magazine, to be ambassador to Guinea.

During the presidential campaign last year, Attwood took a leave of absence from the magazine and worked with the Democratic National Committee as a writer.

Attwood's home is New Canaan, Conn.

## Statement by Rusk Protested

CAIRO (AP) — Deputy Foreign Minister Hussein Zulfikar Sabry today summoned the U.S. ambassador and protested against Secretary of State Dean Rusk's reported statement that the United Arab Republic had sent arms to the rebel regime in the Congo.

The Middle East News Agency said Zulfikar told U.S. Ambassador Frederick Reinhardt the Rusk statement, as carried in news reports, included "flagrant equivocation." He asked Reinhardt to obtain clarification in Washington.

The agency denied U.A.R. trucks loaded with arms had crossed Sudan to the leftist rebels in the northeast Congo. The diplomatic editor of the semi-official agency said the report proved Rusk's "ignorance of the map of the world."

## Rees' Father Takes Stand for Son

BALTIMORE (AP)—The father of Melvin Davis Rees Jr. testified today he saw nothing unusual in his son's appearance when he arrived home the day after the government contends young Rees kidnapped a Virginia mother and daughter two years ago.

Melvin Davis Rees Sr., 61, of Hyattsville, Md., told a jury his son arrived home about 13 hours after the time that the government contends Rees kidnapped Mrs. Mildred Jackson and her daughter, Susan, 5, of Apple Grove, Va., and took them into Maryland for the purpose of killing them.

A Washington D.C. couple testified Wednesday that young Rees was in their home the night the government contends he kidnapped the two members of the Carroll V. Jackson family.

## Sales Declined, Report Reveals

ST. LOUIS (AP)—The Federal Reserve Bank of St. Louis reports department stores in the Eighth Federal Reserve District the week ended Feb. 11 declined nine per cent from the similar week of 1960.

The Memphis area took the biggest drop, 14 per cent. St. Louis followed with a decline of 11 per cent. Louisville sales were down six per cent and Little Rock fell three per cent. Sales in seven smaller district cities, however, rose one per cent.

Sales during the four weeks ended Feb. 11 trailed the corresponding four weeks of 1960 by eight per cent while sales for the year to date were seven per cent under the like period a year ago.

## Aircraft Must Sound Alarm

WASHINGTON (AP)—The Federal Aviation Agency today ordered airplane pilots to notify FAA air traffic control immediately if any navigational or communications equipment fails in flight.

The order, effective at once, applies to all aircraft operating in controlled air space under instrument flight rules.

The order obviously stemmed from investigation of the airline collision over New York City Dec. 16. Hearings on that accident produced testimony that one of the two receivers of radio navigation signals on one of the planes was out of operation, and that the air traffic control had not been so advised.

## Bill Sets Up Life Fishing Licenses

By JOHN R. STARR

LITTLE ROCK (AP)—The Arkansas House ignored the state Constitution today and passed a bill providing for lifetime hunting and fishing licenses.

Faulkner County Rep. W. H. Sanson pushed his bill to passage, after St. Francis County Rep. Clark Kinney read a constitutional provision that hunting and fishing licenses should be issued annually at a cost of at least \$1.50 per year.

Sanson's bill would set a descending scale of fees for lifetime licenses. A 16-year-old would pay \$98. A person 65 or over would get a life-time license for \$2.

Hunting and fishing licenses now cost \$2.50 each for everybody. The constitution is the Game & Fish Commission authority to set these fees, but yearly every legislature makes some attempt to cut the charge for older persons.

Kinney said he would agree with the purpose of Sanson's bill, but he felt it would have to be accomplished by a constitutional amendment.

By a 64-10 vote the House passed a Senate bill to authorize municipal judges to suspend drivers' licenses in certain traffic cases. Judges now have to recommend license suspension to the Revenue Department.

The bill also would permit judges to require traffic offenders to attend driving school and or to write essays on safe driving.

The house passed 85-1 a bill which would prohibit any person under 12 from operating a motor boat, except under direct supervision.

## Health Group Names Walker

LITTLE ROCK (AP)—Samuel Auburn Walker, 54, of Russellville, was elected president of the state Board of Health Thursday to succeed Dr. W. R. Alstadt of Little Rock.

In a board meeting, Dr. J. T. Herron, state health officer, said fly-by-night drug manufacturers were counterfeiting name brand drugs and selling them to druggists in parts of Arkansas.

He said the Booneville Tuberculosis Sanitarium received a supply of drugs, presumably at a cut rate price, but discovered that the medicine contained dirt. The entire shipment was rejected, he said.

## Grain Terminal for Stuttgart

STUTTGART, Ark. (AP)—An expansion program which will give Stuttgart the South's largest inland grain terminal was announced today by the Arkansas Grain Corp.

L. C. Carter, AGC executive vice president, said 64 new concrete soybean storage tanks with a capacity of four million bushels would be added to existing facilities. Work began today.

When the addition is completed Sept. 1, Carter said, the AGC's Stuttgart soybean storage capacity will be about 5.1 million bushels or about one-tenth of the state's annual soybean crop.

Thirteen other AGC-affiliated storage locations have capacity to store about seven million bushels of soybeans.

## Tornadoes Lash Oklahoma, 12 Persons Hurt

OKLAHOMA CITY, Okla. (AP)—Winter tornadoes slashed paths of destruction through central Oklahoma Friday night, heavily damaging one town and battering four others.

Weather alerts were credited with keeping the casualty rate low in the face of widespread property damage. No deaths were reported, but at least 12 persons were slightly injured.

Hardest hit was Konawa, a town of 2,000 about 60 miles southeast of here. A twister stormed down main street leaving 85 per cent of the 4-block business district destroyed or damaged.

Five of the injured were from Konawa, including F. M. Perkins, 55, who was buried for half an hour beneath the rubble of a collapsed brick wall. Rescue workers found him safe, save for lacerations.

National Guard units cordoned off the stricken town from looters and sightseers while workers spent the night probing debris for possible victims.

The cleanup task in Konawa was formidable. One residential street was blocked by an uprooted house. Downtown sidewalks were littered with clothing blown from wrecked merchandise stores.

Other streets were strewn with refrigerators, bathtubs and trees uprooted by the force of the funnel. Several autos were squashed by the fallen trees.

In a bizarre sidelight to the destruction, the body of Louise Cravens, 45, was found in her home. At first she was thought to have died of a heart attack during the storm. Later officers said she had been dead several hours before the storm hit.

The twister was first sighted about three miles southwest of Stratford. It passed over the top of the town lifting roofs and smashing windows of four downtown businesses.

One woman in Stratford was slightly injured.

The funnel moved due north east to sweep through Konawa. From there it laced the outskirts of Wewoka where several garages and four houses were heavily damaged.

All three communities were darkened overnight by loss of power lines.

Another funnel ripped out of a savage thunderstorm at Oklahoma City and struck the eastern part of the city and skipped into Jones northeast of here.

Six persons were slightly injured at Jones as the twister howled over houses and house trailers as though they were a child's building blocks.

## How Much and What Do You Spend

NEW YORK (AP)—How much does your family spend—and for what? The government wants to know.

So it's going to revise the make-up of the cost of living index, last updated in 1950.

A lot of things—franklinizers, for instance—have become noteworthy items in the American economy since then.

And changing times have raised many other questions, such as whether the price of hamburger should figure in the compilation.

The latest monthly index issued by the government was last December's 127.5—meaning that prices of items listed were 27.5 per cent over what they were in the 1947-1949 period, which is the 100 base.

The Labor Department plans a comprehensive survey of consumer spending habits because it believes the reporting value of some of the hundreds of items that figure in the index may be outmoded.

The survey will start in the New York metropolitan area Monday.

The plans were announced Thursday by Ewan Clague, commissioner of labor statistics in the Department of Labor. Labor Department statisticians will be sent out to question families who have incomes from wages.

The government announced some time ago that it would conduct the survey in 27 cities this year and 27 next year, and in 12 metropolitan areas both years. These areas are New York, Chicago, Los Angeles, Philadelphia, Boston, Pittsburgh, Cleveland, Detroit, St. Louis, Baltimore, Washington and San Francisco.

## Weather, That Interesting Topic of Conversation, Has Long Been Recorded Here

By MARY ANITA LASETER  
Hope Star Feature Writer

The weather is always a good topic for conversation, so why not for a newspaper column? If you know that the first weather observations in all Arkansas were kept by Hempstead County's first physician, Dr. Nathan Douglas Smith.

When the Hope Star issued its Centennial Edition 25 years ago, it carried this statement regarding the above-mentioned topic, "Dr. Nathan Douglas Smith, who was the first licensed doctor in Hempstead County, was the first man to keep an authentic record of the weather, which is now in the Smithsonian Institution, Washington, D.C."

Educated in New York state, Dr. Smith went from there to New Orleans for the purpose of studying the weather as well as for practicing medicine. After he got to New Orleans about 1800, he met some people from Washington, Ark., who were down there to sell their cotton. They pointed out a pretty verbal picture of Hempstead County that he decided to come to Washington with them. He was only about 10 or 20 years of age then, and he lived until the early 1880's. The exact date of his death is not known.

For 20 years he kept a record of the weather intermingled with his personal diary of events and business. This was for himself and his family, but when the Smithsonian expressed a desire for it, he presented it to them freely. In explaining to the institution the conditions under which the weather information was gathered, Dr. Smith wrote:

"My thermometer was hung all the time in the same place, in the open air, in the window frame outside of the sash, on the north side of the house eight feet above the ground and protected from any injurious reflection. My rain-gauge is a deep tin cup, set on the ground, in an exposed spot in the garden, and the rain measured after every fall, by a rule graduated to tenths of an inch."

Where was the good doctor's residence, where these observations were made? On a summit between the waters of the Red River and the Ouachita (Except, the doctor spelled the latter name "Washita.") He said that the ridge located 15 miles northeast of Fulton and 20 miles south of the Little Missouri was the highest level for a long distance.

In writing to Joseph Henry, secretary of the Smithsonian Institution, Dr. Smith described in lengthy detail all the aspects of the land as well as of the precipitation. Included in his correspondence with Washington, D.C., was this statement from the doctor in Washington, Ark.: "This soil has the peculiar property of retaining moisture, and sustaining a drought without material injury, that would be fatal to crops on sandy uplands. The soil is scarcely surpassed in fertility, yielding equally well all the varied products of the North, and the cotton of the South."

Before signing his letter Dr. N. D. Smith used the accepted "closing" of his day — "This correspondence is definitely closed." For some reason the letter was never mailed, and as a result it has been preserved for generations such as ours.

Evidently Dr. Smith and the Smithsonian Institution arrived at an agreement, and he furnished them with a full weather report daily from 1840 to 1860 or until his death. In 1936 this authentic record was in the Smithsonian Institution, and so far as can be ascertained is the first authentic weather report ever kept in Arkansas.

## Rules Group to Free All Measures

By GEOFFREY GOULD

WASHINGTON (AP) — The House Rules Committee apparently is changing from a bottleneck into a sieve.

Its chairman, Rep. Howard W. Smith, D-Va., indicated Thursday he plans to turn loose for full House consideration every bill on the committee's docket, including some that are actively disliked by Speaker Sam Rayburn, D-Tex.

In the past Smith and another Southern Democrat joined four conservative Republican committee members to bottle up legislation they didn't like: the bills never reached the floor of the House.

But early in this session Rayburn declared war on this ancient custom, saying that President Kennedy's proposals deserved to be voted on by all House members.

The battle between Rayburn and Smith was bitter and close, but Rayburn won by five votes in a dramatic vote of the entire House. The committee was enlarged from 12 to 15 members, and the new Democrats on it gave Rayburn a majority that would send to the floor the bills he wanted.

But Smith apparently intends to send not only bills Rayburn wants, but bills he doesn't want as well. "We have a mandate to act," he said Thursday. "We are going to act."

Among proposals Smith's committee may act on next week is one to permit radio and television coverage of House committee sessions. Rayburn is dead set against this one.

## Asia, Africans Want Stronger Hand for UN

By WILLIAM N. OATIS

UNITED NATIONS, N.Y. (AP) — Leaders from Asia and Africa pressed the Security Council today to bolster the United Nations' hand in the Congo. The move could leave the Soviet bloc alone in its efforts to force the U.N. out of the strife-torn nation.

Ceylon, Liberia and the United Arab Republic pushed a resolution that would authorize the U.N. to use force if need be to head off civil war in the infant African state, and claimed widespread support in Asia and Africa.

But the resolution faced major hurdles that raised the possibility of an emergency Assembly session. The aim of the proposal received support from the United States — with reservations. Chief U.S. Delegate Adlai Stevenson told reporters Friday night he was doubtful about some provisions but that "it offers a basis for negotiations."

The United States was reported urging that the resolution be broadened to give specific support to Secretary-General Dag Hammarskjöld and Congo President Joseph Kasavubu.

Such a change would almost certainly provoke a veto from the Soviet Union which has denounced Kasavubu as a traitor and called for Hammarskjöld's dismissal. The Soviets are demanding an end of the whole U.N. operation in the Congo within a month.

One diplomat said the resolution has an even chance of council approval—if the United States votes for it and the Soviet Union abstains.

Should it run into a veto, an emergency session of the 99-nation Assembly almost certainly would follow in 24 hours. Guinea and Yugoslavia have said they would seek one.

If the resolution should fail by abstention, no emergency session would be possible under the rules and further Congo action would have to await the Assembly's resumed 1960 session beginning March 7.

A Soviet resolution before the council seeking to scuttle the U.N. Congo command has no chance of passing.

## Star One of 1,299 Daily ABC Papers

The 1961 membership list of the Audit Bureau of Circulations of Chicago, received today, shows Hope Star to be one of 1,299 daily newspaper members. Hope is one of seven daily ABC cities in Arkansas, the other six being: Fayetteville, Fort Smith, Little Rock, Pine Bluff, Rogers and Texarkana.

The organization includes 775 advertiser members and 276 advertising agencies.

Under the terms of its organization the board of directors of Audit Bureau of Circulations always is controlled by the buyers of advertising, advertisers and their agencies — rather than the sellers of advertising, newspapers and magazines.

Newspapers make public sworn statements of circulations to the ABC twice a year, generally for the three months ending March 31, and for the six months ending September 30, and then open their books to the Chicago-controlled auditors once a year for an audit to verify the previously published circulation statements. Hope Stars audit for calendar 1960 was completed by ABC a couple of weeks ago and will be published in detail as soon as released from Chicago.

## Warns About Drugs at Low Prices

LITTLE ROCK (AP)—Dr. J. T. Herron, state health officer, today warned prospective purchasers to be wary of firms offering drugs for sale at below established prices.

He said a half dozen or so "fly-by-night" dealers were offering cut rate medicines. Some times these companies counterfeited copyrighted trade names which are the property of reputable manufacturers, he said.

Sometimes the drugs contain the ingredients they are supposed to in the required strength; often they don't, Dr. Herron said.

In the case of a heart patient, for example, use of a half-strength drug could be dangerous, he added.

"The practice is not only an economic fraud, but is a health hazard as well," Dr. Herron commented.

He described the unethical manufacturers as "quick buck artists," who make widespread use of circulars to offer their wares.

He declined to name any names and said investigations were still under way.

## Wants Action on Minimum Wage Boost

WASHINGTON (AP) — Secretary of Labor Arthur J. Goldberg today urged Congress to act promptly on President Kennedy's request for a three-stage 25-cent increase in the minimum wage and an extension of its coverage.

But Rep. Adam Clayton Powell, D-N.Y., chairman of the House Labor Committee said heavy opposition to the bill within the committee may delay final action.

Powell said he himself opposes the administration measure on the ground that it does not go far enough. And others on the committee think it goes too far, he said.

In general agreement with Powell's stand, the AFL-CIO said the administration plan "is just not good enough."

William Schnitzer, AFL-CIO secretary treasurer, urged in testimony prepared for a Labor subcommittee that the minimum be raised at once to \$1.25 an hour for workers now covered, that newly covered workers get a 44-hour week immediately, and that more retail and service workers be brought under the law.

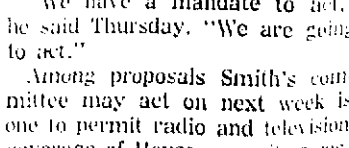

Goldberg, acknowledging that the bill falls short of some of the goals he has fought for previously, said the administration tried to produce a measure that is "possible and attainable, rather than ideal."

Kennedy has given the bill high priority among the antirecession measures he would like to see enacted quickly.

Goldberg, pressing for prompt action said workers whose wages have remained at the \$1 minimum during the five years that level has been in effect have suffered a decline in real earnings due to the increase in the cost of living.

**'Runaway' Car Ruling Upheld**

ST. PAUL, Minn. (AP)—The Minnesota Supreme Court today upheld a \$7,250 verdict against General Motors Corp. in a novel "runaway car" case.

Clifton Grant, 39, Minneapolis, brought suit after his 3-day-old General Motors car halted for a traffic light, suddenly accelerated and shot forward at speeds up to 90 miles an hour. That was in May 1957.

Grant claimed he tried to brake, shift and turn off the ignition during the wild ride. He said he went through eight red lights and two stop signs before the car crunched to a halt.

He had sued for \$30,000, naming both GM and Malmgren Sales of Minneapolis. The District Court verdict named only GM.

GM had contended that if Grant was unable to produce proof of a defect in the car before it left the factory the loss must lie where it falls.

"It is our opinion that plaintiff

## Jessieville Gym Guttured by Fire

HOT SPRINGS, Ark. (AP)—Fire destroyed the Jessieville School gymnasium today, causing damage estimated by Supt. Jeff Click at \$65,000.

The loss included basketball equipment, typewriters and a movie projector.

The District 5-S basketball tournaments for junior boys and senior girls were being played in the gymnasium. It will be completed tonight and Saturday night at the Fountain Lake School.

The frame gymnasium also had a stage and three rooms, a dressing room and other facilities.

## No Plans for a Special Election

LITTLE ROCK (AP)—Gov. Orval E. Faubus says he has not made plans to call a special election to fill the House vacancy created by the death of Rep. W. F. Norrell, D-Ark.

Norrell died Wednesday in Washington.

The governor cannot appoint a successor to a deceased House member as he can name a replacement for a senator. House members must be elected.

Atty. Gen. Frank Holt said that although the law would require Faubus to call an election to pick a successor to Norrell, there are no requirements as to when the election shall be called.

Norrell's district will be divided between two other districts in the next general election as the result of a cut of two House seats because of a population loss.

## Picks Murder as a Form of Suicide

MARION, Ark. (AP)—In a rare legal move, defense lawyers have asked Crittenden Circuit Court to finance private mental tests for a boy who said he chose murder as a form of suicide.

The court appointed lawyer said a psychiatrist and psychologist are necessary to determine whether 14-year-old Gervis B. Nichols was sane when he killed two younger boys with shotgun blasts.

Nichols, an unhappy orphan, surrendered to West Memphis police last Sept. 9 and told them he had killed the boys so the law would then kill him. He said he didn't have the courage to kill himself.

At the Arkansas State Hospital in Little Rock, psychiatrists held Nichols for extended study but released him as being without psychosis. His trial on two counts of first degree murder starts Tuesday.

In their petition, the two defense lawyers said they believe Nichols was insane at the time of the killings, or has become so since, but that there is no money was entitiled to have the jury pass on the issue of negligence," the Supreme Court said.

## Child Abandoned at Little Rock

NORTH LITTLE ROCK (AP)—A baby boy abandoned on the front porch of a house is in custody of the Welfare Department, a juvenile court official said today.

Mrs. Mary Burt Nash said the child, two or three months old, had been a Welfare Department case since it was born. The mother has been located, she said.

The baby was left on the porch of the house of Mr. and Mrs. J. R. Uley last Saturday and was placed in a foster home until it was identified.

## Court Turns Down Appeal by Mrs. Rand

ROGERS, Ark. (AP)—U.S. District Court Thursday turned down an appeal by Mrs. Virginia Rand to have her second degree murder trial transferred to federal court.

Judge John E. Miller ruled in Fort Smith that his court had no jurisdiction over the case against Mrs. Rand, Rogers housewife who is accused in the fatal shooting of restaurant owner H. V. "Buddy" Clark.

She was convicted in a trial last year, but the state Supreme Court reversed that verdict. A second trial was to have started last Monday but was delayed by the federal court action.

No new trial date was set immediately.

Miller rejected Mrs. Rand's contention that she could not obtain a fair trial in the 4th judicial circuit. He noted that she had not sought a change of venue from Benton County Circuit Court into another of the district's three counties.

"It is difficult to conceive that the entire citizenship of each of the counties in the 4th Judicial Circuit are so inflamed and so prejudiced against the defendant as to become a party to denying the defendant her fundamental rights," Judge Miller wrote in his 11-page opinion Thursday.

He added, however, that should the defendant be convicted and then be able to prove that the conviction resulted solely from proceedings prior to or during the trial designed to cause prejudice, then relief might be sought in federal court.

## Caldwell Named State Coach

JONESBORO, Ark. (AP)—Bill Caldwell, former Arkansas State quarterback, today was named to replace Ken Stephens as backfield coach of the Indians.

Stephens resigned last month. Caldwell set 16 new school records in his four-year stint as Arkansas State quarterback. He was acclaimed one of the finest players in small college football his senior year and made honorable mention on The Associated Press Little All-America of 1959.

## President Plans a Long Weekend

WASHINGTON (AP)—President and Mrs. Kennedy expect to leave Washington about noon Saturday to spend the weekend at their rented estate near Middleburg, Va.

## Gets 15 Years for Stealing \$2 Million

SIOUX CITY, Iowa (AP)—The middle-aged daughter of an Iowa banker was sentenced to 15 years in prison today for embezzling \$2 million from her father's bank.

U.S. District Judge Henry N. Graven sentenced Mrs. Bernice Iverson Geiger, 58, to five years on each of the first three counts of a U.S. attorney's information to which she had pleaded guilty last Jan. 30. The sentences are to run consecutively.

The judge also sentenced her to five years on each of the other 33 counts of the information, but those sentences are to run concurrently with the first count.

Mrs. Geiger had a slight smile on her face as she entered court for the final chapter in her embezzlement story which started last Jan. 16 when federal bank examiners uncovered the shortages in her accounts of Sheldon National Bank.

The maudlin woman, a cashier and director of the now defunct bank, occasionally dabbed at her eyes during the 20 minutes she was in court for sentencing.

Mrs. Geiger, daughter of W. P. Iverson, 83, long-time president of the bank, under the law faced a maximum sentence of 175 years in prison and a \$175,000 fine. Judge Graven did not levy a fine.

The information specifically accused Mrs. Geiger of embezzling \$122,393.54 during the period of Nov. 5, 1957 and Jan. 13, 1961. Authorities said she admitted taking \$2,126,859.10.

### FRANK APPRAISAL

by Janet Henry

"Eye shade is essential" said the fashion magazine, And so I thought I'd better change my beauty-aid routine; I shot the weekly budget stocking up on the supplies That help a weary homemaker "add interest to her eyes." Then I applied them carefully (when time seemed opportune) And both my sons exclaimed with glee, "You look like a raccoon."

## DOROTHY DIX

Sound and Fury

By HELEN WORDEN ERSKINE

Dear Helen:

Honestly, sometimes your answers make me sick. To quote you in a recent column, "Mighty few marriages would survive if women didn't overlook their husbands' extra-marital romancing."

I've been brought up to believe the only reason for divorce is adultery. My mother proved that other situations can be overcome by love, faith and perseverance. But a woman should never share her man with another woman.

I am 20 and have only been married a year but I've convinced my husband that if he ever has an affair, I wouldn't just divorce him, I'd kill him.

You're making an awful lot of young wives worry unnecessarily by implying they might just as well expect their husbands to have affairs. — Happily Married and Intending to Stay That Way

Dear Happily Married: Far be it from me, romanticist that I am, to condone infidelity. But life has taught me compassion.

Fifty per cent of my mail is from wives, young and old, whose husbands are unfaithful. If they followed your advice, homicide and divorce rates would soar. Better that they pick up the pieces and go on, the stronger for having been broad-minded.

Dear Helen:

Letters from mothers-in-law you published lead me to speak out myself.

Let's face it: a young wife is always jealous of her husband's love for his mother. The reverse can also be true.

But, once a girl gets her man, her chief aim is to win him over to her camp — which she usually does, in this country.

Now, every man loves his mom. And listen, you young wives! You wouldn't have your darling husband today were it not for his mother!

I love my sons' wives and try to overlook many would-be obstacles, but when I see something really out of line, I talk to them as a loving mother to a loving daughter, explaining that an elder person can see and understand situations better than one who is younger.

Experience, my dear, is a tremendous teacher and a lesson taught with love can avert many a disaster. I say, God Bless all in-laws! — A. S.

Dear A. S.: What a valiant spirit! I admire you but, knowing the in-law troubles of my readers and having encountered a few myself, I sometimes feel that the doctrine of turning the other cheek has its limits.

Dear Helen:

My husband passed away last fall. We were so devoted, having been happily married 43 years. I get lonesome. I go to the store, people are too busy to talk. I go to the post office and buy stamps, just to hear the sound of a human voice, even if only to exchange the time of day.

The tires are bad on my car. My neighbor, a pensioner 80 years old, drives me downtown. People talk. If they minded their own business they'd have their hands full. Why must they be so cruel?

—Mrs. L. R.

Dear Mrs. L. R.: Remember the lines in Robert Burns' poem: "Man's inhumanity to man Makes countless thousands mourn"

They are as true today as the day they were written, more than a century and a half ago. Ignore the busy bodies. When one door closes, another opens. One phase of your life has ended, another is beginning. The present can be just as happy as the past if you have the will to make it so. Find an occupation to your liking. Fill the days with work. Friends will follow.

## Industrial Output Lag Is Reported

WASHINGTON (AP)—Two new government reports show a further lag in the economy with industrial output dropping for the sixth straight month in January and incomes falling for the third month.

In one report, the Federal Reserve Board said Thursday that production at mines, factories and utilities dropped 1 per cent to a point 8 per cent below the record level achieved in January, 1960.

In a separate report, the Commerce Department said personal income dropped by \$600 million last month to an annual rate of \$406.3 billion. This compared with last October's record rate of \$409.7 billion.

The Board said a sharp cutback in auto assemblies, which has continued this month, was only partly offset by a better than seasonal pickup in steel.

The board's industrial production index dipped by one point in January to 102—only 2 per cent greater than the average for 1957.

Further declines in production of business equipment, clothing, furniture, auto parts and some nondurables were noted by the board. Petroleum output increased and appliance production held steady. There was little change in activity in mining and utility industries.

The Commerce Department report said most of the January income decline reflected a reduction in manufacturing payrolls.

Wage and salary payments in manufacturing dropped at the rate of \$400 million a year last month, while marketing payrolls were down \$300 million. Larger payrolls in government and service industries partly offset these declines.

The income of business and professional people dropped \$200 million to the rate of \$35.5 billion a year. There was little change in other types of income.

Meanwhile, the Small Business Administration announced a new move to help stimulate hard-pressed sections of the economy. SBA said size standards for businesses eligible for its aid are being increased by 25 per cent in areas having substantial unemployment.

What this means is that more and larger firms will be eligible for assistance.

President Kennedy said Wednesday night that this action would be taken.

In another step to spur the economy, the Veterans Administration said that, working overtime, it now expects to complete distribution of some \$258.5 million in 1961 GI insurance dividend payments before the last week of March.

The announcement represents a speedup from the original completion date of June 30.

Normally the payments are spread out over a full year. Kennedy ordered immediate distribution to help stimulate the economy by increasing buying power among the more than 5 million veterans involved.

## Plane Crashes Near Amity, 3 Texans Die

AMITY, Ark. (AP)—A twin-engine plane crashed on a Ouachita Mountain farm Thursday only a few minutes after it took off from a Hot Springs airport. All three persons aboard were killed instantly.

The victims were three Greenville, Tex., businessmen, identified as R. E. Cain, 40, an airplane firm executive; Joseph Little, 28, a lumber company official, and John Koch, 26.

Only parts of the bodies were recovered. Clark County Coroner E. H. Murry said funeral home employees and officers would resume a grim search for the rest of the remains at dawn today.

It was not immediately clear whether the plane exploded in the air or struck the ground with a crash heard for miles. A service station operator near Amity said he heard an explosion but the wreckage wasn't located until two hours later.

The three men arrived in Hot Springs Wednesday and took off Thursday afternoon in the red and white Piper Apache. Cain signed a gasoline ticket and the plane took off under a low ceiling and headed southwest, apparently bound for Greenville. No flight plan was filed, said airport manager Ralph Disheroon.

The scene of the crash was three miles north of here, about 40 air miles southwest of Hot Springs.

Wreckage was scattered over a wide area and the bodies could not be identified. Murry said the plane apparently did not burn. It crashed in a wooded area on a northwest Clark County farm.

Federal investigators said they would begin an investigation today.

## Asks Income Tax Be Abolished

LITTLE ROCK (AP)—The Arkansas Senate decided today not to ask Congress to abolish federal income tax.

The Senate approved a resolution to that effect Thursday, but Sen. Douglas Bradley of Jonesboro asked for reconsideration. Today the Senate reversed itself, voting 15-14 against the proposal.

The resolution would have endorsed a resolution which has been introduced in Congress asking that a constitutional amendment to repeal the income tax amendment be submitted to the states.

The congressional resolution also covers several other points, including one that the government "shall not engage in any business, professional, commercial, financial or industrial enterprise except as specified by the Constitution."

Legislatures of Wyoming, Texas, Nevada and Louisiana have endorsed the proposal.

"I don't want to go on record as asking Congress to do something ridiculous," Bradley told his colleagues. "We'll look like nit-wits if we pass this."

## Late Show Sat. at Saenger; Also Sun. and Mon. Feature

WALT DISNEY'S "JUNGLE CAT" LATEST TRUE-LIFE adventure comes to the giant Saenger theater screen this week-end. It's the story of the jaguar, the fierce, fascinating ruler of the Amazon. Also on the same program is an extra treat... "The Hound That Thought He Was a Raccoon." Rex Allen narrates it. Both pictures are in beautiful technicolor.

The motion pictures' greatest contribution to our civilization is the North American beaver. Then there was "Seal Island," "The Living Desert," "The Vanishing Prairie," "The African Lion," "Perry," and many others. And now "Jungle Cat," perhaps the most action packed of them all — at Hope's Saenger this Sunday and Monday.

## To Mark County Equipment

FORREST CITY, Ark. (AP)—The St. Francis County Grand Jury Wednesday ordered that county road equipment and vehicles be stenciled immediately so they will be readily identifiable as county property. The Grand Jury report urged that care be taken so that the interests of no private individual or corporation be served at the expense of the county and its general welfare. The action followed a day long meeting of the Grand Jury in which some opponents of County Judge M. D. Clark appeared before it.

## Starts Tuesday at Saenger

JOHN O'HARA'S "FROM THE TERRACE" STARRING Paul Newman, Joanne Woodward and Myrna Loy starts Tuesday on the giant Saenger theater screen and is the bold story of love in and out of marriage. It's an adult picture, made for adults.

## Chapter XXIV

Hope, Blanche supposed, was the thing which had sustained her in those awful days of imprisonment. And hope was the thing she had lost when she had let herself drift off into the limbo of unknowingness. Now, like the life ebbs back into her stiffened fingers, hope had begun to return to her. And then she had a memory of Jane sitting there in the lamplight, her face so close - so sad and lost. Her gaze moved beyond her hand and caught a glimpse of the glass on the table and the bit of water that remained in it.

Remembering that she had spilled some of the water before, she reached out to the glass with both hands. At the same moment, however the sound of approaching foot-steps, and she looked up in bright alarm.

Her thoughts, following what she had been through, were automatically those of fear and self-preservation. Her gaze darted toward the precious glass of water. Jane was coming to take it away from her!

The water was hers, and she meant to have it. She moved too swiftly, too carelessly; her stiffened fingers struck against the glass instead of curving around it, and she could only stare in horror as she saw it fall, heard it crash to the floor. Across the room, the door opened and Jane, wearing her soiled white wrapper, came in.

"Blanche," a voice said softly, "Blanche, please . . . I'm sorry."

A sigh, a faint breath of relief, touched Blanche's lips. Then it was over, the horror, really, really over, at last. She looked up at Jane, feeling a sudden and totally unreasoning rush of love. She nodded her head to indicate her forgiveness.

The damp cloth moved upon her arms and her hands. It felt good, good . . . She let her eyes close again and felt herself drifting off into a state of blissful suspension. She did not actually sleep, for she was aware of Jane lifting her up to change the bed linen, and then again, to put a fresh pillow beneath her head. Then she was given food, warm soup from a cup, one careful spoonful at a time. As the food reached her stomach, she had a slight sensation of nausea, but there was also a feeling of revitalization, a gradual loosening of the numbness that had gripped her body.

She looked around to find Jane sitting close to the bed, hunched forward, tears streaming down her face.

"You'll help me, won't you?" she said. "I'm - I'm so afraid. Blanche - and there's nobody but you. If they find me - if they find out - I don't know what they'll do to me!"

Blanche stared at the frightened, contorted face.

"It was her own fault. She wouldn't go away. I told her to go - and she wouldn't. You have a right, don't you, to - to do something - when a person won't get out of your own house. I didn't know - I didn't mean to."

## Hope Juniors Cop Title, Stay Undeclared

By VINCE FOSTER  
Hope Star Sports Writer

The Hope Bobkittens became 4AA Jr. Champions for the second straight year by defeating the Magnolia Cubs 47-35 last night in the finals of the Region 4AA Jr. Tournament in Jones Field House.

Magnolia took 3rd place honors by dropping Fairview 38-29 in the consolation game.

Teamwork spelled victory for the Kittens as they not only proved their scoring ability but also their defensive talents as they held the Cubs to 9 points in the first half. Due to their full court press, Coach Wesley Huddleston's Bobkittens jumped to a 12-6 first quarter lead. Then by giving Magnolia only 3 points in the second period, Hope led at halftime 22-0.

The Bobkittens allowed Magnolia only 5 field goals during the entire game but the Cubs hit 23 out of their 32 foul shots on Hope's 22 fouls.

Hope outscored Magnolia 14-8 in the third quarter and led 36-19 going into the final period. Here, with the second team Kittens playing most of the quarter, the Cubs outscored Hope 16-11, but the Bobkittens already had the game and the Championship.

Jerry Burnett took 17 for the Kittens, while Dan Jones sank 13, Sprague 5, McDowell 3, McLarty, Reinhardt, Marcum and Thrash 2 each, and Wassell 1. Dodson was high for the losers with 14.

The Kittens and the Cubs travel to Jonesboro February 22 for the

## Day of Prayer

How wonderful if our nation would take to its knees on this National-Day-of-Prayer, and make our oath a reality, a "nation under God." Even our money declares our faith —

"In God we trust." All those who have the prayer habit and many with concern for a good world will pray. Will you pray? Then begin the vigil with self-examination. This general Confession offers a fitting personal prayer to God. "Forgive what I have been; help me to amend what I am; and by thy Holy Spirit, direct what I shall be... Amen." Unless we begin in some such mood, we run the risk of hindering God's purposes instead of helping. "Not my will, Lord, But Thine be done."
